*Enforcement Date November 2007*

You may now register on-line at [www.ucr.in.gov](http://www.ucr.in.gov)

On January 2007 the UCR Agreement replaces the Single State Registration System (SSR). The UCR agreement is the interstate agreement developed under the UCR plan governing the collection and distribution of registration information and UCR fees paid by motor carriers, motor private carriers, brokers, freight forwarders, and leasing companies pursuant to 49 United States Code (U.S.C.) section 13908.

UCR fees were determined by the Secretary of the United States Department of Transportation based upon recommendations by the Board of Directors of the UCR Plan.

The UCR plan is the organization of State, Federal, and Industry representatives responsible for developing, implementing, and administering the UCR Agreement.

Delaware registrants may contact one of the following jurisdictions to register with the UCR for the year 2007 or file electronically on-line.
